Blaine Stops Big Hill Park Project

BIG HILL PROJECT VETOED BY BLAINE WITH OTHER PARKS DELLS AND NORTHERN LAKES PLAN ALSO IS JOLTED.

IS NOT SUFFICIENT Do Not Meet Program Properly; Apply Surtax Elsewhere, Advice.

[BY ASSOCIATED PRESS.] Madison.—The three large park bills passed by the legislature, including the Northern Lakes Park, the Dells of the Wisconsin and Big Hill on the Rock river, were vetoed Thursday by Governor Blaine on the ground that they do not meet the park program as it should be met.

"The planning of a park program should be as carefully considered as the planning of any other great undertaking," the governor said in his message. "There should be a well-developed plan, along lines that will afford parks for the masses of the people rather than to establish areas that will never be utilized either within our time or our children's."

In speaking on the surtax provision to the bills which would raise the \$350,000 needed to purchase the tracts Governor Blaine says, that far better were that surtax applied to ward a reduction of the mill taxes, thereby reducing the property tax to that extent than to apply it on the purchase of the property, the necessities for which are very doubtful.

Can Get Land Free. "I might add," he said, "that the state, from time to time is the recipient of lands for park purposes from the public spirited citizens at no cost to the state. In fact, there is now before the legislature a bill for the purchase of a very historical and beautiful spot for a state park without cost to the state."

He does not urge the facts as a reason for my disapproval inasmuch as the state can buy park lands without donation, but as an incident that might well be called to your attention," he says.

The Northern Lakes Park in Sawyer and Price counties including an eight thousand acre tract of virgin hardwood timber, which was donated to the state by the owners, is the particular attention of the governor.

"It may be argued that the acquisition of this tract is one means of conservation," the message declares. "Those who feel that way, I think, are misled largely through sentiment. Trees do not grow forever—especially hardwood timber. In order to conserve this it must be cut within reasonable time or not believe that it is the purpose of the state to engage in lumber undertakings."

Dells Too Expensive. Governor Blaine, in his veto of the Dells park bill, says it would be necessary to invest anywhere from \$200,000 to \$300,000 additional to secure riparian control of the Wisconsin river, and objects largely on the question of cost.

In a second objection was applied to the Big Hill project which, to be a successful state park, would require construction of a bridge across the Rock river, with expenditure of a large amount of money.

Tank Unit to Camp Douglas Next Month
Company "I," tank corps, Wisconsin National guard, stationed in this city, will act as divisional tank company at Camp Douglas according to orders received Wednesday, by Capt. Ralph D. Harmon. The unit was originally scheduled to go to Camp Grant at Rockford. It will start for the cantonment Aug. 1. The unit is composed of 30 men on roll. Eight recruits were accepted last week. Every effort is being made to take full complement of 35 along.

Under the new regulations of the national guard, every member of the company must go to camp. No excuses are being accepted.

Top of the local cavalry unit, will go to Camp Grant about August 29.

VETERAN PASTOR DIES IN LA CROSSE
[BY ASSOCIATED PRESS.] La Crosse.—The Rev. William White, 72, died Thursday morning from the effects of a stroke of paralysis suffered while walking on Main street a week ago. Father White held pastorates at Dittick and Hammond, and for 18 years was pastor of St. Mary's parish, this city, retiring 13 years ago, because of failing health. The funeral will be held Saturday.

Where You Can Get Farm Help
Mr. Harvester do you need help RIGHT NOW? This is a busy season for you and you have to get things coming into town to look for a man. Why not do as Mr. Davis did? He lives some little distance out in the country and was very busy but he had a telephone and used it. He ordered a small help wanted ad run for a couple of nights. After the first insertion he began to get replies from all over. All told he got nearly 30 replies.

The Want Ad Page in the Gazette is the right place to get farm help. First it is quick and then its cheap and convenient to use.

WAGE REDUCTION IN STOCKYARDS DENIED
Chicago.—Judge Samuel A. Schuster, arbitrator in the stock yards wage cases, Thursday refused to grant a reduction of five cents an hour in the wages of the 75,000 packing house workers, as requested by the company. At the same time he ruled overtime must be paid for all over 48 hours a week.

In a second decision the judge declined to set aside a reduction of eight cents an hour in the wages of employees of the Union Stock yards of Chicago, made sometime ago by the company, after it had announced its withdrawal from the arbitration agreement.

The company later re-entered the pact, which runs until September.

Latter Making Big Advances, Athens Claims; Planes Aid in Fight.

[BY ASSOCIATED PRESS.] Constantinople.—Turkish nationalists and Greek forces are locked in battle before Kutia, southeast of Brussa. Airplanes are taking part in the struggle for Mountain Heights near the town, which is the first objective of the Greek offensive.

SWIFT ADVANCE IS REPORTED BY OTHERS
Athens.—The Greeks, in their offensive against the Turkish nationalists are making an average advance of about 21 1/2 miles a day, says an official statement issued Thursday. The nationalists are retreating on strong positions to the northwest of Eski-Shehr and southwest of Kutia.

Kiwanis Seeks Chicago Traffic for Janesville
Steps to get the Chicago-to-Madison auto traffic to pass through this city instead of Kenosha were made at the weekly meeting of the Kiwanis club at the Grand hotel Thursday noon. A committee, consisting of Pierpont Wood, chairman; George Yahn, John McVicar, Dell Harder and Frank Hayes, was appointed to investigate the matter and report withdrawal Friday night, when they have their charter presentation.

The main speaker was Lucian Holman, manager of the Chamber of Commerce, who outlined the plan of the chamber in caring for problems, told some of the things already done and things planned, such as a community building, a tourists' camp and traffic regulation.

The attendance prize for the week was taken by Dell Harder, and Charles Chase was the silent booster, laying packages of tea at each place.

Between 20 and 25 members of the club will be guests of the Monroe organization Friday night, when they have their charter presentation.

Halt Work on Kresge Block, Beloit, Pending Injunction Proceeding

Pending Injunction proceedings to stop the work on the erection of the \$55,000 Kresge building at the Central bridge over Rock river at Beloit, officials arrested at Beloit agreed to stop construction work when they appeared before Court Commissioner Robert Cunningham at 10 a. m. Thursday.

They were represented in court by Charles Pierce, Janesville attorney.

KILL ALL THE FLIES, SAVE MANY LIVES, STAMP OUT DISEASE
Every precaution against the spreading of disease by flies is urged during this hot spell by City Sanitary Inspector L. J. Woodworth. The height of the fly incident usually is during the latter part of August, and September, but the unprecedented heat wave has so advanced it that there are millions more flies now than ordinarily at this time.

Stomach cramps among adults and dysentery among infants may be expected to break out within the next few weeks, according to the same authority. To keep this down to a minimum, he urges that every precaution be taken to keep flies out of food and cooking utensils in the home. Rigid observance of the city ordinance compelling the covering of receptacles not to be cooked or peeled will be required of stores, declares Dr. Woodworth.

He urges that soiled infants' diapers, an active source of disease, be washed out immediately.

Hold Livestock Rates Too High Urge Reduction
Washington.—Rates on livestock were held unreasonable from an economic standpoint and a recommendation was made to the Interstate Commerce commission that curriers make substantial reductions for the benefit of business in general, in a report made Thursday by Examiner Disque. The case, brought by livestock shippers in the western states and in which various state commissions are involved, will be heard Friday by the commission.

TRANSFORMERS OUT
The transformers of the Janesville Electric company were temporarily put out of commission Wednesday night when struck by lightning. The Milton circuit of this company was out of order part of the night. Little trouble was experienced in Janesville.

Local telephone lines were little disturbed by the electrical storm. The Minneapolis-Chicago long distance line of the Bell Telephone company was put out completely Wednesday and was still experiencing trouble at noon Thursday. Reports from Minneapolis are to the effect that they experienced the worst electrical storm there in years.

Wednesday's terrific heat was responsible for hastening the death of E. L. Cook, 66, of Heart Prairie, Wis., who had been suffering with neuralgia of the heart. He died while making his daily milk route and was found by motorists.

The highest point reached here Wednesday was 102 degrees in the shade at 3 p. m. Evansville reported 100 between 2 and 3 p. m.

LLOYD GEORGE AND DE VALERA CONFER ON PEACE PLANS

TALK ALMOST THREE HOURS; MEETING ENDS AMICABLY.

CROWD PRAYS Irish Sympathizers Kneel in Rain as Leader and Premier Meet.

[BY ASSOCIATED PRESS.] Belfast.—Rioting broke out again in the Cork street area here Thursday morning. A bomb was thrown and damaged a grocery store, which also was looted, and many persons were slightly injured and windows were broken. The police restored order without being compelled to use force.

A member of the British house of commons for Dublin, who was released from Mount Joy prison June 20, arrived in Galway Wednesday.

[BY ASSOCIATED PRESS.] London.—Ernest De Valera and Premier Lloyd George conferred for more than two and half hours Thursday over the question of an Irish settlement. The republican leader arrived at the prime minister's official residence in Downing street at 4:30 p. m., and left at 7:10 p. m.

At the conclusion of the conference, Art O'Brien, president of the Gaelic league in London, stated it had terminated "amicably."

Notwithstanding a drizzling rain, a crowd, which had gathered at the entrance to Downing street, waited patiently for some announcement from the momentous meeting.

Crowd Throngs Outside. Shortly after Mr. De Valera entered the prime minister's house the crowd knelt in White Hall and began to recite the Rosary.

Mr. De Valera received a cable message from the United States Thursday informing him of the postponement of the opening of the United States senate on the resolutions of Senator La Follette and Senator Norris, in connection with Irish affairs.

The message concluded: "America wishes to see your ability and integrity, earnestly hopes the

Bright Outlook Says De Valera for Irish Peace
[BY ASSOCIATED PRESS.] London.—The outlook for a lasting peace in Ireland is brighter than it has been in history, declared Ernest De Valera, the Irish republican leader, as he was about to enter into conference with Mr. Lloyd George, British prime minister, in an attempt to find a basis for an adjustment of the Irish problem.

"I am sure," he said, "that the atmosphere in England and Ireland is right for such a thing. The thing necessary now is for us to get down to work."

It was the first time Mr. De Valera had spoken for publication since his arrival in London Tuesday night.

"This is simply a private conference with Mr. Lloyd George, in the hope of a long range bombardment, to see what can be done at close quarters," said the republican leader, who was in a bright and cheerful mood in talking with the correspondent.

Asked whether he would insist on the discussion in London being given full publicity, Mr. De Valera replied: "I am not at all anxious to have my private conversations given publicity."

Mr. De Valera also received many other messages from Ireland, England, the United States and Australia, expressing hope for the success of the conference.

Talk With Aides. Mr. Lloyd George spent Wednesday afternoon at Chequers Court, his country home, with his aides. It was assumed they talked over the procedure to be followed at Thursday's meeting. Mr. De Valera also held a long conference with prominent Irish republicans, but it was

Peterson School Board Bill Is Killed by Veto; Dangerous Taxing Powers

[BY ASSOCIATED PRESS.] Madison.—The Peterson bill providing for the creation of elective school boards in every city of the state with authority to levy taxes for educational purposes, was vetoed by Governor Blaine today on the ground that cities would be coerced into voting for the adoption of the system.

The measure would have made an entire revision of the school laws of the state and would have created a new scheme in school government, and taxation by school boards under the general optional law.

Coercive Feature. "The referendum provision of the bill is so drafted that the electors of the city would be coerced into voting for the adoption of this system," the governor says. "If they do not vote for the adoption of the system the school board will have no authority and the schools cannot be conducted."

"It is very plain thereof that this provision is so drawn that it constitutes a coercive measure, enforcing upon the people an entirely new system of school government without the right of a choice."

"If this suggested policy were carried out with respect to the several boards and commissions of the cities, there would be no end of tax levying," the message states, "the question concerning this bill is reduced thereof to a simple problem, and that is whether or not we should adopt a policy in this state creating tax levying boards."

A cablegram on the subject from the British chancellor of exchequer to R. C. Lindsay, representing the British treasury in this country, which was transmitted to Assistant Secretary Lansingwell of the treasury department also was presented.

On La Follette's Request. Both communications were read to the committee by Assistant Secretary Lansingwell on request of Senator La Follette, republican, who is chairman of the committee.

Premier Lloyd George, in his letter to President Wilson, called attention to the insistence of France on strict taxation from Germany of the fullest extent possible, and the German people could pay, and added:

"You will remember that Great Britain borrowed from the United States about half as much as its total loans to the allies and after America's entry into the war it lent the allies almost exactly the same amount as it borrowed from the United States of America. Accordingly, the British government has informed the French government that it will agree to an equitable arrangement for the reduction or conclusion of the inter-allied indebtedness, but that such arrangement must be one that applies all around."

Not Reluctant. Mr. Lloyd George added that he "should like to make it plain" that there was no reluctance on the part of Great Britain to agree to the funding of her debt to the United States.

"I am very glad to receive the news," was all she would say.

MRS. STILLMAN IS PLEASED WITH VICTORY
Chicago.—Mrs. W. C. Stillman, visiting at the Harold McCracken estate in Lake Forest, Thursday refrained from comment over her victory in New York yesterday, over her husband, James A. LEAVES FUND FOR CREW DESTROYING JAPANESE WARSHIP
Peterson, N. J.—The first American capture of a ship of Japanese warship in event of war between the United States and Japan would receive a prize of 5,000 German marks by the will of Charles O. H. Fritzsche, former Peterson engineer.

It was received here from Dresden, Germany, where Mr. Fritzsche died Jan. 1.

The will, made April 19, 1910, creates a 5,000 mark trust fund, the income of which is to go to buy dynamite for the poor of Peterson, unless this country gets into war with Japan. Then the principal is to go for the prize.

MOONSHINE PARTY BROKEN UP AND 11 MEN ARRESTED

SHACK OF CONSTABLE DULIN RAIDED BY 3 SETS OF OFFICERS.

BOOZE FROM BELOIT
Italians Surprised at Midnight by Game Wardens and Deputies.

In a sensational night raid during which revolvers were drawn, a posse composed of officers from Rock county, the state prohibition office and the state game conservation commission, a total of 11 arrests were made and an alleged moonshine fishing camp destroyed early Thursday morning on the east bank of Rock river 10 miles north of Janesville.

William Dulin, Janesville constable, who is also a deputy game warden and an officer of the state treasury department, is under arrest on a warrant charging unlawful purchase of moonshine liquor. He is alleged to be the owner of the camp.

Charles Dulin, 16, son of Constable Dulin, was caught at the camp and pleaded guilty to unlawful fishing. The youth gave incriminating evidence on the witness stand when arraigned Thursday morning. He implicated his father and others in sworn statements.

Italians Arrested. The others under arrest include Clarence Preston, who with the Dulin youth, was living at the fishing camp.

Michael Janna, 551 Grand avenue, Beloit, is charged with transporting liquor from Beloit to the camp. A Buick touring car, the owner was seized by the prohibition agents.

Angelo Janna, Chicago, a brother of Michael, was fined \$75 and costs, on his plea of guilty to fishing without a license.

The other Italians arrested in the raid were Jasher Dehtia, Tony Mantellion, Charles Allen, Albert Anselmo and James Pellegrino. They were released by the order of Judge H. L. Maxfield when no warrants could be made against them during the hearing which took two hours in the municipal court Thursday morning.

Camp Was Watched. The raid is the result of investigation work by the Rock County Game Protection association, of which Charles Snyder, Janesville, is an officer.

It is alleged that William Dulin established the fishing camp and it was admitted during the hearing that set lines and "bottle lines" were used to catch cat-fish.

There was suspicion of illegal sale of liquor so two prohibition officers, E. C. Farthing and Carl Hennig, were called in to aid the game commissioners Andrew Sampson and Edward Fess, who with Charles

WAIT LEGAL WORD ON HOSPITAL SITE

La Crosse After Memorial Institution: Governor's Island Held Probable.

[BY ASSOCIATED PRESS.] Madison. — Selection of a site for the new soldiers' memorial hospital was held yesterday by the special committee investigating available locations, in order to secure an interpretation of the statute by the attorney general.

La Crosse is understood to have offered the site of a hospital valued at \$150,000, if the new building could be located in that city. The law provides the location must be on land owned by the state.

Attorney General Morgan will determine whether this means land already owned by the state or that which may be acquired. Intent of the act, according to the finance committee, was to require that the institution be constructed on land already state owned.

If this determination is reached by the attorney general, Governor's Island in Lake Mendota, Madison, probably will be selected. It is said better facilities for care of the men would be afforded there than at Waupesa, the other site mentioned.

MOONSHINE RAID WITH 11 ARRESTS

(Continued from Page 1.)

Snyder and Frank Britt from the sheriff's office made the raid.

Surrounding camp.

After midnight they neared the camp and started coming down the grade to the river bank with the headlights showing the tent, the lanterns and other men at the camp. All stood up making the raid spectacular as the authorities jumped out, surrounded the camp at the point of guns, and the game line for being searched. Only a ride and knife was found.

In the touring car owned by Michael Janna, the prohibition officers found half a gallon of moonshine. Janna admitted bringing the liquor from Beloit and it was being used by the Italians and Preston.

The game commission found a still and the lines and eight catfish, which were alleged to have been caught on the set-lines.

Alleged Moonshine Sales.

According to the authorities, the camp, which has been watched for two weeks, was being used to distribute illicit liquor made in Beloit and South Beloit and brought to the river camp for sale. The game commissioners alleged that fish were exchanged for the bottled goods, which in turn were being sold in Janesville and at the county concrete road job, the camp for which is located a few miles below the fishing camp.

All the men found at the camp were arrested and brought to Janesville to be arraigned in municipal court.

Charles E. Pierce appeared for District Attorney S. G. Dunwiddie and prosecuted the cases.

Names 11's Father.

Charles Dulin was called to the witness stand. He admitted that he and Preston had used set-lines with "about 50 hooks" and had caught fish. He told the court the Beloit Italians had been to the camp several times within the last three weeks, and he had seen moonshine brought there and drunk.

"I heard my father brought some on July 3 and I guess he took it home—I don't know," testified the son as the father stood in the court room doorway.

"Were there ever any women up there?" asked Attorney Pierce.

"Yes, several times—but I don't know who they were," the youth answered.

A warrant was sworn out and served on Constable Dulin as he stood in the court room, charging that he purchased liquor, which is a violation under the new state prohibition law. Dulin was not arraigned during the morning session of the court.

The son pleaded guilty to illegal fishing and will be sentenced Friday morning.

Pleads Not Guilty.

Clarence Preston, the other youth, who has worked in and around Janesville, pleaded not guilty to a similar complaint and his trial set for July 19.

While Michael Janna admitted to the court he had the half gallon of moonshine in his car which "ran over" the Italians from Beloit to the river camp, he entered a plea of not guilty to any charges of transporting of liquor and his trial also set for July 19. His bail was set at \$200 and in default was committed to the county jail.

The other Italian, Angelo Janna, a brother, paid his \$75 fine with a \$200 bill.

"We believe there has been moonshine brought and sold at the camp, especially to the road construction gang," the prohibition officers stated.

These Beloit Italians were not going up there for parties or for fishing—they were selling moonshine.

Game Club in Probe.

The game protective officers declared they had complaints that dynamite was being used to kill fish in the river.

There was a laugh among the officers when the youthful Dulin, with his rugged shoes, torn pants and shirt, took the stand to testify.

"What do you go up to that camp for?" asked Attorney Pierce.

"To keep out of trouble," answered Dulin.

"Instead of that you got right into trouble," replied the attorney.

"Yes, and it was not a week before I found it out either," said Dulin, who apparently was unafraid to tell the truth.

GORDON HEARERS SOUGHT BY LEGION

Removal of Officer to be Asked if Evidence Is Sufficient.

First steps in the investigation of the alleged statements of L. A. Gordon, assistant secretary of state for Wisconsin, before a Luther League audience here, to the effect that American soldiers were "drunk" and "immoral" before entering the firing line and "polluted French cities" are being taken Thursday by the Richard Ellis Janesville Post of the American Legion.

Members of the executive committee are interviewing as many persons as they can find who were at the meeting and are getting their version of the remarks made by the speaker. The result of the investigation will be sent, together with newspaper clippings of the speech and the denial by the Rev. T. S. Thorsen, pastor of the first Lutheran church here, to the Wisconsin department of the American Legion.

If sufficient evidence is gathered, the legion plans to request the removal of Secretary Gordon and a public retraction by him of the alleged remarks.

DREXEL INDICTED FOR ALLEGED SALE OF FILM STOCK

A. J. Drexel, Jr.

Anthony J. Drexel, Jr., member of the wealthy and well known Drexel family, has been indicted in New York with three other men for the alleged sale of more stock in the Standard Film Industries, Inc., than it was supposed to issue. They are charged with selling \$350,000 worth of stock. Eliot Norton, Harvard professor, also indicted, says the charge is a technical one. Louis B. Jennings and Harry Brodsky are the others under indictment. Drexel is said to be abroad.

CENTENNIAL FETE PLANNED BY INDIANS

[BY ASSOCIATED PRESS.] Green Bay.—Ojibwa Indians plan a centennial homecoming celebration here in August to mark the hundredth anniversary of the coming of the Ojibwa Indians to Wisconsin after they had been crowded out of their hunting and fishing grounds in New York state.

When they settled here in the fall of 1821 this part of the country was a vast wilderness with few white settlers.

Several thousand Indians are expected for the celebration which takes place Aug. 1 to 5. The Menominees, Chippewas, Stockbridges, Munsees, Brothertowns, Potawatamies and Canadian Ojibwas are looked for in great number. Old Indian customs will be observed and Indian games will be played and an Indian council will be held. This centennial celebration may be the Ojibwa's first and last to be held, as the Indians are rapidly forgetting their old ways and are entering commercial and business life of every community.

Personal invitations will be extended by the Indians to President Harding, Commissioner of Indian Affairs Burke and governor, Blaine of Wisconsin.

BUSINESS OUTLOOK BRIGHT, ASSERTION

Great Progress During First Half of 1921 Told by Trade Journal.

[BY ASSOCIATED PRESS.] Chicago.—In no period of the history of the United States has greater progress been made than during the first half of 1921, says The Manufacturers' News, in its issue Thursday.

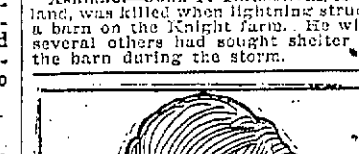

"We continue to talk about readjustments when we already have entered on a new political and business era containing the elements of unprecedented national prosperity for at least 10 years to come," the news says and continues:

"The great basic and manufacturing industries have adjusted their affairs to the new condition of things. Excessive losses have been taken without involving any particular line in insolvency. New prices have been established which will create a steady demand as the public resumption buying which was not stopped by a lack of money, but by injudicious propaganda.

"The railroad situation is no longer discouraging. With the carriers being in a position to save \$400,000,000 annually in wages, a fair chance of an equitable revision of working agreements and a steady increase in operating efficiency, a general reduction of rates may be possible before the end of the year.

"The construction industry which was practically dead for a number of years, is reviving. Labor disputes are being settled, and material prices are being reduced."

THRESHING STARTED ALL OVER COUNTY WITH GOOD YIELDS

Threshing has started in all parts of Rock county, and additional farm help is needed badly. One of the first farmers to start the harvest work was Leo Campbell, near Evansville.

Edward H. Parker, Janesville, finished threshing Wednesday and the yield was better than expected with oats and barley.

"The oats obtained from the Parker farm were as good as I have seen this year," declared County Agent Glasco. "The yield will be good in most cases."

It is claimed that oats and barley planted early are yielding better than those planted late.

The True Measure of Gasoline Efficiency Lies Not in Gravity, but in Boiling Points!

The gravity test determines only the weight of a gallon of gasoline compared with a gallon of water.

Boiling points are the temperatures at which component parts of the gasoline are converted into vapors which mixed with the air produce power. Manifestly, for a smooth flow of power, the chain of boiling point fractions must be arranged in perfect continuity and sequence.

CENTENARY OF MARY BAKER EDDY ATTRACTS WORLD WIDE ATTENTION

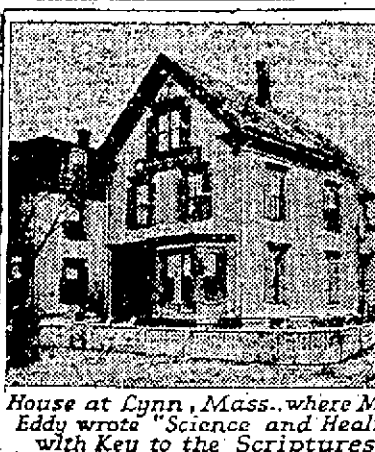

Mary Baker Eddy Discoverer and Founder of Christian Science.

Birthplace of Mary Baker Eddy (Near Concord) New Hampshire

Granite Pyramid Memorial Marking Birthplace of Mary Baker Eddy

House at Lynn, Mass., where Mrs. Eddy wrote "Science and Health" with Key to the Scriptures.

Boston, Mass.—The one hundredth anniversary of one of the most remarkable women of those who labor to benefit humanity will be commemorated Saturday, July 16. Born in the little New Hampshire village of Bow on July 16, 1821, Mary Baker Eddy, by her determination to devote herself to spiritual things, has risen in the hearts of millions of human beings to a height achieved by few.

That Mrs. Eddy was an American, born of a long line of Puritan ancestors, and whose ancestry is that of the Anglo-Saxon founders of this country, is in the minds of many thoughtful people, but another concrete evidence of the vast spiritual destiny of America.

It was on February 1, 1866, that Mary Baker Eddy fell upon the ice at Lynn, Mass., and sustained what physicians pronounced a fatal injury. For years previously she had been seeking a "greater light upon the Scriptures," and in her extremity she turned to her Bible for help. It was three days after her injury that she regained consciousness, heard the verdict of the doctors, and asked for the Gospel of Matthew, and as she read the account of the healing of the palsied man, she herself said: "It was to me a revelation of Truth; the lost chord of Truth, healing as of old."

She rose, dressed herself and walked into the parlor of the house where she was confined, and there she gathered those who had but a few moments previously left what they believed was her death-bed. That incident marks, she has said, the discovery of Christian Science.

On Thanksgiving Day, 1908, appeared the last of her deals: a daily newspaper which should in her own language, "injure no man, but bless all mankind." Quietly, and from all parts of the United States and Europe, she gathered the men to whom she entrusted the carrying out of her plan. She wrote to a select few of her students, and told them that the time had come for the establishment of the Christian Science Monitor, and asked them to produce the first copy. They replied three months, and the paper made its appearance on time.

Those who have contended that "woman lacks the necessary ability to carry forward great enterprises have been met many times without the record of Mary Baker Eddy, a simple New England woman of great culture, refinement and courage, who, more than fifty years built up an organization that has spread all over the globe; that has for one of its expressions a magnificent temple that dominates the capital of the United States of Boston, and that is devoted to the amelioration of the lives of mankind.

Mrs. Eddy's father was Mark Baker, her mother was Abigail, nee Ambrose. Mrs. Eddy's mother was the sister of Senator Hoke Smith's grandmother. Mrs. Eddy was a gentle, cultured woman. Her brother, Albert, who was a law partner of Franklin H. Pierce, later president of the United States, was her tutor, and before she was eighteen she was familiar with Latin, Hebrew and Greek. Later in life she taught in the Methodist Conference Sunday school. She contributed more or less regularly to well-known publications in New England, generally upon political topics, and some of her writings were published in the Belmar Gazette and the New Hampshire Patriot. After the death of her first husband she was offered a salary of \$3,000 a year to write for the Odd Fellows' Magazine by its editor, Rev. Albert Case.

Her first individual publication was "Science and Health, With Key to the Scriptures," which made its appearance in 1875.

The earthly pilgrimage of the venerable founder of this great religious movement came to a close on December 3, 1910, and on that occasion appeared in the press of the world a remarkable tribute to the work of this great religious figure. Agreement or disagreement with her teachings counted nothing to go apparently with the sincere appreciation expressed on every hand that this gentle American woman had lifted up a standard of conduct and character that had worked vastly in the improvement of the moral standards of the world. As an indication of the estimate in which she was held by those who knew her best, the city council of her home city, Concord, N. H., on this occasion passed a formal resolution declaring that by the death of the Rev. Mary Baker Eddy the world had suffered an irreparable loss and the citizens of Concord the loss of an honored and a devoted friend of our city whose motto

40 BOYS OFF FOR CAMP ROTARDALE

Motor to Lauderdale for 10 Days Outing; Trucks Take Baggage.

Forty happy boys, attired for roughing it, gathered at the Chamber of Commerce building at 1:30 p. m. Thursday and, in cars provided by the Rotary club transportation committee, of which Louis Levy is chairman, were off for Rotardale camp on Lauderdale lake, where they will spend 10 days under the direction of staff headed by A. Optometrist of Beloit Ousted by State Body

Eau Claire.—Alva Snyder, Beloit optometrist and jeweler, was expelled from the Wisconsin Association of Optometrists at the twenty-first annual convention here on Wednesday by the vote of 24 members, on the grounds that he had circulated bulletins containing false statements against the proposed amendment to the present law regulating the practice of optometry in Wisconsin. It was due to his bulletins, the optometrists held, that the amendment failed to pass the legislature in April.

Here's Patriarch of Cornstalks

Another contender for the honor of having the largest stalk of corn grown in the vicinity of Janesville and Rock county is P. C. Vincent, 1313 Milton Junction, near Lake Koshkonong, and so far he leads all other contenders. The stalk of corn brought in by Mr. Vincent was planted two months ago, being of the Silo King variety. It measures 15 feet, 6 inches. This is the largest stalk exhibited this year.

MAP SHOWS CITY AS RAIL CENTER

Excellent Transportation Facilities Shown on Engineer's Drawing.

Showing how the Chicago and Northwestern and the Chicago, Milwaukee and St. Paul railways enter and depart from Janesville in nine different ways, the railroad map of the city drawn by E. N. Paige, industrial engineer, who is here conducting an industrial survey for the Chamber of Commerce, has been completed. It is 10 feet long by 3 feet wide. It indicates every important railway in the United States with numerous cities.

Shows Rail Facilities. The purpose of the map is to demonstrate the excellent railroad connections serving Janesville. The map shows the Milwaukee road from the Pacific coast to the coal mines of Indiana—the only western line penetrating the east without having to transfer at the Chicago belt line—shown in heavy white lines. Those of the Northwestern, from Chicago to Lander, Wyo., are marked in red.

Compared to Milwaukee, one of the largest inland shipping ports, Janesville has only one less-railroad connection, the Cream City having 10. The map shows clearly how goods may be shipped from this city to any point in the United States by way of intersecting lines. It also illustrates the boat lines on the Great Lakes, which may be reached by way of Milwaukee.

500 SCHOOL BOARD FOLK MEET HERE

Cooperation and Betterment of
Equipment and Finances,
Urged.

Co-operation between clerks and members of district school boards and betterment of school conditions in matters of equipment and financial problems were urged by speakers at the forenoon session of the annual convention of the Rock county school board members and teachers, at the Janesville high school Thursday morning. There are 500 clerks, officers and district school officials and teachers attending the convention.

Supt. O. D. Antisell presided. The convention opened at 9:45 with a musical program led by Miss Jacobson, of the teachers' training school. F. J. Louth, principal of the teachers' training school, touched on teachers' salaries and declared it would be disastrous to drop back in rural salaries. He said now is the time to discriminate between good and poor teachers.

Urges Best Teachers
"I believe we should have the best teachers possible for our girls and boys of the rural schools," said Mr. Louth. "There has been talk of consolidation of two and three districts in various sections of the county, but we haven't got anywhere. The time is coming when we will have consolidated schools and the longer we put it off the longer we work against the welfare of Rock county school children. It is easy to talk but that will never improve the schools."

Mr. Louth urged that the school board members visit the schools, hold regular meetings, talk matters over with the school teachers. "We put our finger first on school matters second," said Mr. Louth.

Speaking on what "one district clerk thinks of the rural schools," the Rev. Ivar Ramseth declared rural schools need teachers with the best education possible, because her subjects were much larger in number and more varied than in city schools.

Rural Schools Next
"If I had to choose between sending my children to the rural schools and the city schools, I would choose the rural, because I believe there is more chance to develop the individuality in the boy and girl in the country school than in the city school," said Mr. Ramseth.

Mr. Ramseth urged better equipment in school houses, the addition of screens for doors and windows; a well for each school house; proper heating and cooling equipment for teacher and children and better sanitary conditions.

"When a farmer sends a man into the field to work, he expects him to be good, not a broken one," he said. "It should be the same with the teacher. She should have the proper equipment."

See farmers keeping their children out of school to work on the farm. I often wonder if they are not placing their children secondarily. This condition should not exist and the farmers should realize the benefits they derive from having their children go through school."

Cows First, Then Children
"I wonder, too, if farmers think more of the comfort of their cows than of their children. Cows are housed in the barns with concrete floors and the best of conditions—much better than some of the school houses."

Inspector George S. Dick, Madison, explained the laws which have been passed at this session of the legislature which affect rural schools. He declared the new superintendent of public instruction, Mr. C. A. Johnson, was in hearty sympathy with the boys and girls of rural communities and asked the co-operation of the school boards.

**ELECTRICAL STORM
DOES SOME DAMAGE**
(Continued from page 1.)
moisture saved the root crops, southern Wisconsin farmers said.

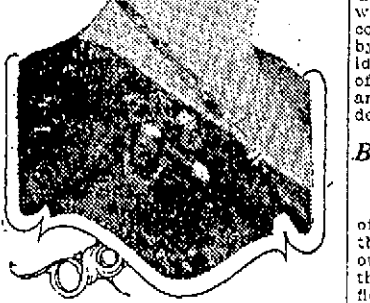

Rain fell over the greater part of Missouri, Kansas, lower Nebraska, northern Illinois and southern Wisconsin, but promises that the heat had been broken were lacking.

In Chicago, thunderclouds, a haze and then a breeze deflected the blistering sun's rays but humidity remained high and no rain fell here.

Claims One Victim.
Madison.—The heat wave of the last few weeks claimed the first victim in Madison late Wednesday, when Frank C. Wolf, proprietor of a local drug store, was overcome and died while being taken to the hospital.

Half Inch of Rain
La Crosse.—Over a half inch of rain which fell last night, saved millions of dollars worth of crops in western Wisconsin and eastern Minnesota, farmers declare. The rain broke the heated spell, the temperature being 5 to 10 degrees lower Thursday.

**CANADA'S WOMAN
CABINET MINISTER**

The Hon. Mary Ellen Ralph Smith who holds the highest place yet attained by one of her sex in the parliaments of the world, that of cabinet minister in the British Columbia cabinet, acted first in the interest of English girls. Her first official act was attendance at a meeting of the Canadian council of immigration, which planned for a more extensive policy of immigration of Englishwomen to Canada.

OBITUARY

William Welchhouse.
William Welchhouse, 77 years of age, died at the county farm Wednesday. He had lived in Rock county for a number of years, making Broadhead his home. He is survived by a son, Frank, and a daughter, Mrs. Dora Lambert, California, Ill.

The funeral arrangements have not been made, but it will be held in Broadhead.

Funeral services will be held at the home of Miss Catherine Effield, 468 North Jackson street at 4 p. m. Wednesday. Interment will be in the Oak Hill cemetery.

George King of this city, a brother of Ross King, went to Chicago Thursday morning on hearing of her death.

**CRIMINAL ASSAULT
CHARGE IS MADE**
Three Men Mixed Up in Alleged Attack on Blind School Girls.

Three Janesville youths Thomas Reed, William Griffin and Edward Murphy are under arrest pending the issuing of warrants alleging a statutory offense against two girl employees of the Wisconsin School for the Blind.

Thomas Reed is alleged to have made an attack upon Agnes Litz, aged 22, in a thicket near the blind school Wednesday night. Charges of being accessories before the alleged crime are to be made against Griffin and Murphy. It was stated at police headquarters that the youths are to be arraigned either late on Thursday afternoon or Friday morning when District Attorney S. C. Guddard will be here for the preparation of the complaints.

Supt. Hooper's Statement.
"This is the statement of Supt. J. T. Hooper after his investigation:

"Tuesday night Agnes Litz, aged 22 and Ella Chamberlain, maids at the school for the blind, returned from Beloit arriving at Main and Milwaukee streets at 10 o'clock. They were carrying bags and started on a walk for the school. Between Academy and Locust they were accosted by two youths, strangers to them. They went on as they were without speaking. At the fountain, Pleasant and Milwaukee, the men again came upon them and the girls fled. They were followed and taken to the lumber yard were overtaken. Here the men talked to them and carried their bags to Eastern avenue. The Chamberlain girl objected to going through the woods and pasture as a short cut but was overruled."

Read on the Scene.
While they were going through the pasture, the man Reed came upon the party, and said he was an officer.

"What are you doing here?" he is quoted as saying.
He told the men, Murphy and Griffin to beat it and said for the Chamberlain girl to go to the school. He wanted to talk to the Litz girl. The Chamberlain girl went on to the school. It is charged that Reed took the Litz girl through the woods and pasture as a short cut but was overruled."

When the girls arrived at the school they reported the affair to Superintendent Hooper and he at once made an investigation, calling the police with the resulting arrest of Reed, Murphy and Griffin.

**Four Arrested
For Speeding**
Four arrests for speeding, three by the city police and the fourth by County Highway Patrolman Roy Worthington featured the session of the municipal court Wednesday afternoon.

John Farman, pool room owner, was fined \$10 and costs when he pleaded guilty to fast driving on the Janesville-Beloit concrete highway. The complaint was Patrolman Worthington.

R. M. Wiedner, Beloit, paid a fine of \$15 and costs when he pleaded guilty to speeding in Janesville. M. Goodman, salesman, was fined \$10 and costs. Hugo Larsen, Rockford, was arrested Wednesday night on complaint of speeding within the city limits. He left \$20 bail with the police and was to have reported Thursday at 2 p. m.

"The bond will be forfeited unless he shows up during the afternoon," said Chief Thomas Morrissey.

**FARM LEADERS IN
LEGISLATION PLEA**
Washington.—Co-operative organizations among agricultural producers in both buying and selling, enlargement of bank credits and agricultural allotments by federal reserve banks were urged Thursday on the joint congressional agricultural committee by E. C. Pommeroy, Oshkosh, president of the Wisconsin State Union of the American Society of Equity, and T. A. Hougas, Des Moines, president of the Iowa Farmers' union.

**BURGLARS AGAIN
MAKE MILTON VISIT**
Milton.—Burglars entered the office of E. J. Brown, broke the combination safe and knocked the combination out Wednesday night, but did not get the safe door open. At the lumber office of T. A. Saunders and son they secured a few dollars and at P. L. Barnes' office, as at Lipke Brothers', knocked out the combination, but did not get the safe open.

**COUNTERFEIT OUTFIT
FOUND; 4 ARRESTED**
Milwaukee.—Three men and a woman were arrested Thursday as a result of a raid on a counterfeit apparatus for counterfeit half dollars was found. The raided place is only a few doors south of the west side police station.

Indian Tribe Will Use Big Fund to Modernize Homes, Farms, Schools

[RE ASSOCIATED PRESS.]
Duluth.—Chippewa Indians on the Not Lake Indian reservation in northeastern Minnesota, who recently received approximately a half million dollars for timber sold from their reservation, will make good use of the money. Instead of disposing of their fortunes for blankets, beads, tobacco, and possibly whiskey, as the Indians of old did, these Chippewas will build schools and homes, outfit their farms with modern machinery and stock, and undoubtedly make rapid advancement from conditions which have gained for them the name of the most primitive of the Chippewa nation.

Chief College Grad.
So believes Chief Wa-na-bo-sho, Carlisle graduate and better known as Joe Norup, who is devoting his time to helping the Indians become better civilized and to encourage legislation which would release to the Chippewas millions of dollars said to be rightly theirs, which is being held in reserve by the government Indian bureau.

Chief Wa-na-bo-sho, who is married and has a family residing in this city, is one of the stalwart braves who, early in the 20th century, desert the wigwam and entered the white brother's school to obtain an education.

Living in what Chief Wa-na-bo-sho describes as "wretched conditions," the Not Lake tribe of the Chippewas gained fame in recent years by their protest against the government's disposal of their lands and squaws of the Chippewa nation retired to the Not Lake reservation several years ago and practically became outcasts from their ancient home. They refused to accept the tribe's general council and in the past, according to Wa-na-bo-sho, they have repeatedly turned down offers of assistance from their fellow tribesmen.

This situation was brought about, Wa-na-bo-sho believes, because the Indians were destitute and barely managed to exist. Now, that they have been provided with a means of disposing of their lands and receive at least part of the cash turned over by private interests to the government bureau, he believes the Not Lake Chippewas will join their fellow tribesmen in the nation's upward trend to modern mode of living.

**CORPORATION BONDS
TO BE SOLD JULY 29**
Bids will be received by the city committee composed of T. E. Welsh, mayor, W. L. Lennartz, city treasurer, Roger Cunningham, city attorney and S. J. Sawyer, city clerk, for the sale of \$100,000 corporation bonds July 29. The bonds bear interest at six percent.

They will pay for the construction of the main sewer to be built on Eastern avenue to a point below the lower dam on Rock river. The Messwa construction company, Oshkosh, has the contract for the sewer and will start construction work this week.

Sale of these bonds will make the bonded indebtedness of Janesville \$1,122,000, according to City Clerk E. J. Sartell.

**READING BOOSTED
BY UNEMPLOYMENT**
Circulation of Fiction Books Almost Double That of Year Ago.

One of the outstanding facts in the annual report of the librarian, Miss Fannie Cox, presented to the library board Monday afternoon, was the fact that unemployment has boosted the circulation of fiction books to almost double that of the year before, with \$7,273 volumes circulating since July 1, 1920.

Improvement in all departments, in the book list, in the number of books in the list of periodicals and in the circulation is shown in the report and, with the plans for the coming year carried out, the library will be in a better financial condition than any year before, besides having the largest circulation in its history and better cooperation from the city and the borrowers than ever before.

The present staff was reappointed at the start of the new year. The officers were re-elected. F. L. Clemens, Jr., president; Mrs. A. P. Loveloy, secretary; and Miss Fannie Cox, secretary.

755 Books Added.
The report was for the fiscal year, from July to July, and showed that 755 books were added to the adult library, 252 of which were fiction. As against 350 the year before this was a decided increase. Because of worn binding and lost books, 134 books were withdrawn. Of these, 132 were fiction. To the fiction library 252 new books were added in the 55 total, were added and 132 periodicals and newspapers are now received. The reference library now numbers 3,334 volumes.

There are 7,547 resident borrowers, approximately 41 per cent of the population of the city. It was figured that the average number of books a borrower took out in the year was 19.

The increase in the circulation was 5,193 volumes, almost double the increase of the year before. The circulation of fiction books alone increased 2,550 volumes. Fiction was 50 per cent of the adult circulation.

The total circulation, adult and children's library, was 58,293 volumes, a figure which compares favorably with the 55,000 of the year before. The circulation increase was 13 per cent in 1919-20. It was 8 per cent and the year before that was 3 per cent.

Children's Dept. Active.
The children's library showed that department in good condition and standing well in cooperation with the schools for their dispositions and purchases.

One of the main points of interest in Miss Cox's report was that some of the books withdrawn during the year were 10 years old and a few even 20 years' service. Story hours were successful this year. Story hours were held during the Saturdays of the winter months, with an average attendance of 100.

One of the city's appropriation for the year just ended of \$11,550, while the year before it had been but \$6,000, the year closed with \$2,989 on hand. Through his efforts, action was taken some time ago which resulted in a year round closed season for claims in the Rock river. He also has been responsible for putting the conservation commission in touch with violators of the law within the county.

His latest work was in co-operating with others in keeping the state commission a three man body when efforts were made to make it a one man organization.

Charles E. Snyder, secretary of the Rock County Game Protective association, has been appointed deputy game warden at large. Papers giving him authority were received Wednesday.

Mr. Snyder has been active, not only in game protection as a member of the association, but in investigating fish and game conditions throughout this section of the state. Through his efforts, action was taken some time ago which resulted in a year round closed season for claims in the Rock river. He also has been responsible for putting the conservation commission in touch with violators of the law within the county.

His latest work was in co-operating with others in keeping the state commission a three man body when efforts were made to make it a one man organization.

IRISH IN CONFERENCE OVER PEACE TERM

(Continued from Page 1.)
indicated he would enter the conference with no fixed formula or policy. It was said he was ready to talk over the situation and consider any suggestions that would be made regarding a truce parley in which the Sinn Fein, Ulster and the British government would take part. But it was probable that definite decisions might not be reached until after Mr. De Valera had returned to Dublin and there taken counsel with the Sinn Fein parliament.

Sir James Craig, premier of Ulster, who has been outspoken in opposition to parleys between the government and Sinn Fein leaders, left Belfast Wednesday night for London. It was believed he would be ready to act as spokesman for the north Irish delegation.

It was announced from De Valera headquarters that the Sinn Fein conference would take the form of a personal interview between the British prime minister and Mr. De Valera, no one else being present.

An agreement was reached at the recent Dublin conference between Eamon De Valera and the southern unionists regarding terms which would be demanded from the British government at the conference in London. They were categorically denied at De Valera's headquarters by Secretary Childers of the visiting Irish party.

There was no discussion direct or indirect of any such terms," Mr. Childers said. "The conference confined itself exclusively to discussion of Mr. Lloyd George's invitation to a conference and the arrangements regarding the truce."

The published report, to which Mr. Childers referred, alleged that the terms of the provisional agreement included besides the provisions of the present government of Ireland, the following:

A dominion status for southern Ireland; southern Ireland to be exempt from imperial taxation and have full fiscal autonomy; north Ireland to remain as at present.

38 DIVORCES IN COUNTY THIS YEAR

Many Cases Pending; Cruelty, Desertion, Non-Support, Chief Causes.

Nothing seems to stop divorces in Rock County, for 38 cases have been granted in Rock County this year with a number of pending cases both in Beloit and Janesville. It is expected that since the Beloit municipal court has been granted jurisdiction to grant divorces, the total number of the county will be further increased.

Cruelty, desertion and non-support are the main causes mentioned in the complaint informations filed. In most every case there is mention of desertion or non-support. All divorce cases are reviewed previous to their being heard in court by Attorney O. E. Oestreich, divorce counsel for Rock county.

Causes of Divorce
"Lack of work," says Attorney Oestreich, "and insufficient funds with which to support a family are potent factors in producing divorces in Rock county. In close association with these causes is despondency and cruelty."

"The fact that desertion testifies that a real bond no longer exists and this causes figures in three-fifths of the cases. This indicates that the prevalence of divorces is not due to the laxity of laws, but to the decay of virtues upon which the family rests, namely self-sacrifice, forbearance and family loyalty."

The causes for divorce in southern Wisconsin have been figured out to be:

Desertion, 40 per cent.
Cruelty, 20 per cent.
Statutory, 18 per cent.
Drunkennes, 4 per cent.
Non-support, 4 per cent.
Miscellaneous, 14 per cent.

Tendency to Separation
Janesville attorneys unite in their opinion that there is a marked tendency toward the loosening of the marriage bonds, which together with the ease with which divorce is granted in some districts, becomes a scandal.

Racine county reports 750 marriages and 169 divorces. Waushara county had 325 marriages and 49 divorces. Ozaukee county, 125 marriages and 15 divorces; Brown county, (Green Bay) 550 marriages and 77 divorces; Manitowoc county, 455 marriages and 25 divorces; Wood county, 300 marriages and 37 divorces; Douglas county, 272 marriages and 35 divorces; Winnebago county,

Osborn & Duddington

Last Two Days of Our Greatest July Clearance Sale.

For tomorrow, we draw in our belt a little tighter, take on a little more courage and cut prices still deeper, to make this last week of our annual clean-up sale do a thorough job of ridding our store of every piece of merchandise that we can get into other hands.

On Monday, August 1st, we are determined to have a spick-span-new stock of merchandise to present to our customers. It is then that we expect to turn over a new leaf, leaving the old war conditions—the old war merchandise and all the old war prices behind.

This Will Be the Store of TODAY. Everything NEW. Everything at ROCK BOTTOM PRICES.

Of course, prices will be much lower during the present week, while we are cleaning out the shelves and clearing off the counters—for we are sacrificing profits, and, in many cases losing part of the cost the goods themselves. And these goods will serve you quite as well as though you paid regular prices for them later on.

This page tells much of tomorrow's news; but the littlest lots, with the biggest price cuts, often do not permit of public advertising.

They are delightful economy surprises for people when they come to the store.

Women's Smart Dresses for August Vacations.

Of course, the season in Summer Dresses is over for us; but it is just here for hundreds of women whose vacations and other outings will come next month.

**LOOK WHERE PARIS
SKIRTS ARE NOW**

A black and white illustration of a woman standing with her hands on her hips. She is wearing a long, dark, patterned dress with a fitted bodice and a full skirt. She is also wearing a wide-brimmed hat with a veil. The illustration is framed by a decorative border.

While Americans are bewailing the short skirts worn on the fashionable avenues and blaming Paris for it all, Paris is now going ab-

in quaint frocks such as this with skirts which barely escape the ankles. This model is fashioned in taffeta with a tight fitting, light colored, basque bodice and a full gathered black taffeta skirt.

TANKS WILL WORK AT BATHING BEACH

Chutes Will be Erected at South Jackson Street Swimming Place.

Work on the remodeling of the South Jackson street bathing beach will be started Saturday by Co. "T", Tank Corps, which will dredge the river near the beach, remove piling left there by the old bridge and such other work as is required. The public is invited to watch the tanks in operation.

Two chutes, 24 feet in elevation, sloping into the river will be erected on the beach, one chute for adults and one for children. The beach will be divided into two separate compartments, one for men and the other for women. A fence also will be erected to separate the sections. Manager W. J. Hill said the beach will be run as a clean and wholesome proposition and people are requested to leave their dogs at home when they come to swim. More than 20 dogs swam among the 300 people there Wednesday night.

In the near future it is hoped a shower and bigger and better lockers may be installed. The grounds around the beach will be made into a small park, benches already having been placed there.

The property in which the beach is situated is owned by W. J. Hill, who, at the time the beach was prepared, was alderman of the fourth ward, and has since donated the use of his property.

DEPUTIES' CHAMBER SHRINKS WITH CENSUS

Yark.—The decrease in the population of France as shown by the census of 1921 will reduce the chamber of deputies to be elected in 1924 from its present strength of 626 to 556, unless the system of representation in the chamber is changed in the meantime by new legislation. It is possible the strength of the new chamber may be even further reduced by legislation, it having been proposed by some groups to limit the number of deputies to about 400.

TURK JOAN OF ARC BATTLES GREEKS

Angora, Turkey.—A Turkish Joan of Arc, Aishe Hanum, has started a woman's fighting brigade against the Greeks. Her organization, called the Zein brigade, already has taken part in active fighting, and she is constantly enrolling new recruits.

ITALIAN GOVERNMENT MAKES CHEAP CIGAR

Rome.—Somewhere the Italian government has solved the problem of a cheap national cigar. Prices of tobacco have been soaring to such heights that the ordinary smoker could not purchase. Accordingly experts were assigned to the task of getting up a new cigar, which will soon be put on the market and will sell for 2 cents. It will resemble the Pittsburgh stogie.

WOULD BAR TATTOO PARLORS IN HAWAII

Honolulu, T. H.—An ordinance designed to put Honolulu's "tattooing parlors" out of existence has been drafted by W. H. Heen, city and county attorney. Naval authorities have frowned on the art of pricking permanent patterns in Indian ink on the cuticle of Uncle Sam's soldiers and it was through the commandant at Pearl Harbor that the matter was first brought to the local official's attention.

BRITAIN IN PERIL IF GERMANY PAYS, SAYS ENGLISHMAN

Reginald McKenna.

Defining what many British experts call the "boomerang folly" of the allied form of reparation demanded of Germany, Reginald McKenna, formerly chancellor of the exchequer of Great Britain, recently stated that England was in danger of being ruined by Germany's cash payment of the war indemnity. He said that if Germany paid in manufactured goods England's world trade would be imperilled, and declared that the only hope of England was to insist on Germany's payment in raw materials and food.

Farm Bureau Seeks 50,000 Membership

The Wisconsin Farm Bureau federation in Wisconsin will endeavor to reach a membership of 50,000, placing the organization in the lead among farm enterprises in this state. The present membership is 14,000, with the Equity League claiming 35,000 and the Non-Partisan League 25,000.

Fifteen counties of the state already have permanent Farm Bureau organizations and 14 temporary units which soon will be made permanent. Organization work has been held up at present because of farm harvest work. The campaigns will be started late in the fall, according to Chris. Schroder, state secretary.

SPEAKS AT CONVENTION OF WIS. OPTOMETRISTS

Evansville.—A. E. Harte, Evansville, president of the Wisconsin Association of Optometrists, responded to the welcoming address of Mayor J. E. Barvia at the opening of the 21st annual convention at Eau Claire this week.

LICENSE BODY TO MEET ATTORNEY

Aldermen Will Consider Ordinance Governing Soft Drink Parlors.

The license committee of the city council will meet in conference with City Attorney Roger Cunningham within the next week for drafting the tentative ordinance to license soft drink establishments in Janesville. Similar ordinances will be passed in every city and village in Rock county before August 1, the date the new prohibition law is to be enforced.

The license fee must be between \$50 and \$100 and it is understood that \$75 will be recommended.

The Janesville ordinance will come up for consideration before the council on July 25 and rules will have to be suspended in order to obtain the passage of the measure in time.

"I believe the committee will meet the first of next week for making recommendations for the ordinance," said City Attorney Roger Cunningham Thursday.

It is proposed to make the Janesville ordinance contain the same provisions and same penalties as the state law, and, consequently to require the removal of bars, stalls and blinds.

Women Here Welcome Equal Rights Law

Although women of Janesville do not know just what the women of the state will do with their "rights" which they received when Governor J. J. Blaine signed the bill giving all women equal rights with the men, they are all glad that the bill has been passed and feel that the women are receiving no more than they deserve.

Mrs. Walter Helms, in speaking of the matter stated, "I am very much in favor of it. I think the women should have no more favors than the men and they should have just as many."

Home Comes First.

Mrs. D. W. Holmes expressed her opinion of the matter by saying, "I am glad that Wisconsin was first but I do not think the women will do any different than they have been doing. I have always believed that the woman's place is in the home, taking care of her children and her family."

Mrs. A. M. Fisher was also glad that the bill had finally been passed after all the effort of the part of the women who helped put it over. She said, "I hope the women show their appreciation now that the bill is passed. It is no more than right that the women be given equal rights."

FARMER NABBED ON BOOTLEG CHARGE

Monroe.—Jacob Wyss, former saloonkeeper and now a farmer, is the latest victim of the liquor hunters from the sheriff's office. He was arrested Tuesday night charged with having a still in his possession. Officers had to work fast at the Junction City Inn, owned by Wyss, which is in charge of his wife, Mrs. Wyss, on their entrance, went into a pantry and started smashing jugs filled with liquid. Sheriff Buehler rescued a jug and will have it analyzed for alcoholic content.

has accepted the agency in Evansville and they will gladly take your ad either over the phone or over their counter.

The GAZETTE enters more homes in Evansville and the vicinity than does any other daily paper.

Misses Alice Colony, Beth Biglow, Esther Brunell, Mary Crook and Laura Earlyne are among those camping at Lake Kegonsa.

Robert and Ben Hubbard have returned home after visit at the Delbert Smith home, Brooklyn.

Miss Esther Prichard, after a visit with her brother, Herbert Prichard, Janesville, has returned home.

Mr. and Mrs. Ben Young and Miss Ethel Leese were here Wednesday calling on old friends and getting Mrs. Young's household goods to move to their home in Green Bay. Mrs. Young was formerly Miss Lillian Leese, Evansville.

At Opera House Tonight and Friday, Mary Pickford in the "Love Light."

Dr. and Mrs. J. J. Wright and son, Dr. Herbert Wright, and Helen Wright, Milwaukee, motored here Thursday and were guests of their cousin, Miss Eleanor Andrews. Friday they will leave for Sawyer, a summer resort near Lost Lake, and will visit other places in the northern part of the state. They expect to be gone about three weeks.

POWERFUL BAIT ON HAND SOMEWHERE

Monroe.—Roy Zweifel, camping at Lake Kegonsa, tells a fish story which might come favorably with any yet told. He was fishing on Lake Kegonsa recently with several women in the boat when he noticed a large fish, on the end of his line. With one sweep of the oar the fish was in the boat. It proved to be a four pound pickerel.

"THE 'WORLD' IS MINE"

Every boy and girl can have a "World" bicycle free for some quick work. Already many boys are registering for the subscription campaign, by which a "World" bicycle will be given free to those securing 25 accredited yearly subscriptions—people who have not been on the Gazette lists for the last sixty days. The work is progressing in all parts of the Gazette territory.

It is not hard work, it doesn't take long and the friends of the boys and girls are anxious to help them secure the ambition of their lives—a real honest to goodness bicycle, is turned over to the worker.

There is no money to pay and none to collect. As soon as the subscribers' names are turned in, the Gazette verifies them, and the moment they are proved satisfactory, the bicycle is yours.

The main thing is to get started on the job quickly. Any boy or girl living in Janesville or throughout the Gazette territory which includes Rock, Dane, Green, Jefferson, Walworth Counties are eligible. This great opportunity is meant for you.

CONDITIONS: Any boy or girl in Janesville or the surrounding territory may enter.

Subscriptions must be obtained for one year and be turned in to the Janesville Daily Gazette Circulation Department between now and the first of September.

Boys and girls are not required to pay any money. Merely send in the special blank with the subscriber's signature.

There are to be twenty-five yearly subscriptions secured which have not been on the Gazette list for the past sixty days. Immediately these are verified by the Circulation Department and found to be correct, the bicycle will be delivered to the enterprising boy or girl.

For particulars call at the Gazette office or send coupon.
